INDEX

VOLUME 54, 1978

A

Abdellah, Faye G. The future of long-term care, 261

Abdominal trauma and abdominal infections, Tetracyclines in. Peter Dineen and G. Thomas Shires, 177

Abramson, David H. and Ellsworth, Robert M. Treatment of choroidal melanomas, 849

Abstracts, New York Heart Association scientific session on research, 307

Academy Medal to Saul Krugman, M.D., Presentation of the. Joseph Dancis, 910

Academy Plaque to George A. Perera, M.D., Presentation of the. James McCormack, 907

Ackerman, Robert W. The organizational environment and ethical conduct in occupational medicine: A perspective, 707

A company's duty to report health hazards. Bruce W. Karrh, 782

Agencies, Existing legislation and government regulatory. John R. Quarles, Jr., 442

Aging persons, Statement on the need for the education of physicians on the care of. The New York Academy of Medicine, 542

Ahern, Lawrence J. Labor, 452

Ahern, Lawrence J., 452, 457

Ahmed, A. Karim. 446, 457

Ahmed, A. Karim. Public interest groups, 446

Air criteria, Role of the medical science community in developing ambient. Delbert A. Barth, 1241

Air, Health benefits and health costs of controlling sulfur oxides in. Lawrence E. Hinkle, Jr., 1257

Air pollution, Evaluation of research strategies for investigation of health effects of. Inge F. Goldstein and Martin Goldstein, 1119

Air pollution from time series analysis: Methodological questions and some new results based on New York City daily mortality, 1963-1976, Evidence for possible health effects of ambient. Herbert Schimmel, 1052

Air pollution, Health benefits of abating. Lester B. Lave, 1235

Air pollution—health effects, The effect of misclassification of exposure status in epidemiological studies of. Carl M. Shy, David G. Kleinbaum, and Harold Morgenstern, 1155

Air-quality trends in New York City. Edward Ferrand, 1025

Albert, Roy E. 384, 435, 457

Albert, Roy E. Introduction (Cancer Epidemic? A Symposium on Carcinogens), 384

American Occupational Medical Association. Code of conduct for physicians providing occupational medical services, 818

Anaerobic lung infections treated with doxycycline. Haragapal Thadepalli, David Webb, and Jong T. Huang, 165

Ancient Egyptian case of carcinoma. Eugen Strouhal, 290

Andrulis, Dennis, 113

Anesthesia and spinal cord lesions. Chandrakant Patel, Sanford M. Miller, Jack Chalon, and Herman Turndorf, 924

Anticipating future shifts in American health-manpower policy. John H. Morrow, 678

Armstrong, Robert A. Canadian lessons about health-care costs, 84

Arterial blood: A clinical study, Measured versus calculated oxygen saturation of. Radoslav Kosanin and Elizabeth D. Stein, 951

Artery disease and valvular disease, Circulatory response to tracheal intubation in patients with coronary. Gerard M. Bassell, Yen T. Lin, Yasu Oka, Ronald M. Becker, and Robert W.M. Frater, 842

Assessing medical technologies. David Banta, Clyde Behney, and Dennis Andrulis, 113

Assistance and implementation, Technical. James R. Kimmey, 68

Autopsy in the new world, The first. Fidelio A. Jimenez, 618

B

Banta, David, Behney, Clyde, and Andrulis, Dennis. Assessing medical technologies, 113

Bardach, Joan L. Sexuality in the disabled: some current work: clinical, training, and research aspects, 510

Barth, Delbert S. Role of the medical science community in developing ambient air criteria, 1241

Bassell, Gerard M., Lin, Yen T., Oka, Yasu, Becker, Ronald M., and Frater, Robert W.M. Circulatory response to tracheal intubation in patients with coronary artery disease and valvular disease, 842

Becker, Ronald M., 842

Behney, Clyde, 113

Bell, K.A. 1177

Berger, Milton M: *Working with people called patients*. Book review. Joseph A. Ricci, 620

Berry, Frank Brown, 1892-1976. Edward G. Stanley -Brown, 532
Block, Duane L. Organizational environment and ethical conduct in occupational medicine: Loyalty of the occupational physician, 742
Biography, and Houdini, Psychoanalysis. Eric T. Carlson, 592
Blood: A clinical study, Measured versus calculated oxygen saturation of arterial. Radoslav Kosanin and Elizabeth D. Stein, 951
Bloomfield, Peter. Discussion of paper by Herbert Schimmel, 1109
Blue Cross and Blue Shield of Greater New York. Cancer Epidemic? A Symposium on Carcinogens, 347
Blumenthal, Sol. 484
Bone: Comparison of two methods of treatment, Nonunion of carpal navicular. Kenneth S. Glass and Fred Hochberg, 865
Book Reviews:
Charles R. Nelson: *You Can Speak Again: A Guide to Speech After a Laryngectomy*. Hilton H. Stothers, 342
Z.J. Lipowsky, Don R. Lipsitt, and Peter C. Whybrow: *Psychosomatic Medicine, Current Trends and Clinical Applications*. Arcangelo Calobrisi, 343
Ralph Colp, Jr.: *To Be an Invalid: The Illness of Charles Darwin*. William D. Sharpe, 539
Milton M. Berger: *Working With People Called Patients*. Joseph A. Ricci, 620
Herbert Weiner: *Psychobiology and Human Disease*. Stephen Nordlicht, 622
Donald M. Vickery and James F. Fries: *Take Care of Yourself: A Consumer's Guide to Medical Care*. William D. Sharpe, 900
John P. Bunker, Benjamin A. Barnes, and Frederick Mosteller: *Costs, Risks, and Benefits of Surgery*. William F. Mitty, Jr., 970
Bowers, John Z. Willard Cole Rappleye, 1892-1976, 879
Bradley, Stanley E. The medical student as a moral agent, 641
Bradyarrhythmia in mitral valve prolapse treated with a pacemaker. Maxwell L. Gelfand and Howard Kloth, 889
Bronchitis, and mycoplasmal pneumonia, Sinusitis. George A. Pankey, 156
Brown, Lawrence D. The formulation of federal health care policy, 45
Buechley, Robert W. Discussion of paper by Herbert Schimmel, 1113

C

Calia, Frank M., 237
Calobrisi, Arcangelo, Book review. Z.J. Lipowsky, Don R. Lipsitt, and Peter C. Whybrow: *Psychosomatic Medicine, Current Trends and Clinical Applications*, 343
Canada, Ethical questions posed by community and government pressures on medical education in. Arnold Naimark, 687
Canadian lessons about health-care costs. Robert A. Armstrong, 84
Cancer epidemic? A symposium on carcinogens. Blue Cross and Blue Shield of Greater New York, 347
Cancer, Epidemiological outlook on. Mary G. McCrea Curnen, 349
Carcinogens, Cancer epidemic? A symposium on. Blue Cross and Blue Shield of Greater New York, 347
Carcinogenesis, Current concepts on mechanisms of chemical. I. Bernard Weinstein, 366
Carcinogenesis induced by trace contaminants in potable water. Herman F. Kraybill, 413
Carcinoma, Ancient Egyptian case of. Eugen Strouhal, 290
Cardiovascular risk in the elderly: The Framingham study, Evaluation of. William B. Kannel and Tavia Gordon, 573
Care costs, Canadian lessons about health. Robert A. Armstrong, 84
Care costs, National health insurance as an agent for containing health. Milton I. Roemer, 102
Care costs? Will regulation control health. David S. Salkever, 73
Care of elderly patients: Preparation for the future, The role of the primary physician in the. Irving S. Wright, 545
Care of the aged, Public health nursing's responsibilities for the. Doris Schwartz, 555
Care, Overutilization of health. William R. Roy, 132
Care: myth or reality? Multilevels and opinions in chronic. Barbara M. Silverstone, 271
Care of aging persons, Statement on the need for the education of physicians on the. The New York Academy of Medicine, 542
Care policy, The formulation of federal health. Lawrence D. Brown, 45
Care, The future of long-term. Faye G. Abdellah, 261
Carlson, Eric T. Psychoanalysis, biography, and Houdini., 592

Carnow, Bertram W., 435
Carpal navicular bone: Comparison of two methods of treatment, Nonunion of. Kenneth S. Glass and Fred Hochberg, 865
Chairman's comments. Leonard J. Goldwater, 1209
Chalon, Jack. 924
Children and youth projects, Trends in infant mortality in New York City served by. John J. McNamara, Sol Blumenthal, and Cassie Landers, 484
Choroidal melanomas, Treatment of. David H. Abramson and Robert M. Ellsworth, 849
Chronic, Multilevels and opinions in care: myth or reality? Barbara M. Silverstone, 271
Circulatory response to tracheal intubation in patients with coronary artery disease and valvular disease. Gerard M. Bassell, Yen T. Lin, Yasu Oka, Ronald M. Becker, and Robert W.M. Frater, 842
Clark, Duncan W.: Jean Alonzo Curran, M.D. 1893-1977, 303
Clark, Duncan W. The theme of the conference, 5
Clinical study, Measured versus calculated oxygen saturation of arterial blood: A. Radoslav Kosanin and Elizabeth D. Stein, 951
Clinical teaching: The surgical internship and residency, Ethical concerns in. Francis D. Moore, 648
Clinical, training, and research aspects, Sexuality in the disabled: some current work. Joan L. Bardach, 510
Code of ethical conduct for physicians providing occupational medical services. American Occupational Medical Association, 818
Colucci, Anthony V. Epidemiological considerations relative to sulfur oxides and particulates, 1166
Comments on the symposium. Thomas H. Hunter, 697
Committees and officers of sections of the Academy—1978, Standing, 921
Common sexually transmitted diseases and their treatment. William M. McCormack, 216
Community and government pressures on medical education in Canada, Ethical questions posed by. Arnold Naimark, 687
Company's duty to report health hazards, A. Bruce W. Karrh, 782
Concluding remarks (Symposium on Environmental Effects of Sulfur Oxides and Related Particulates). Norman Simon, 1276
Conduct for physicians providing occupational medical services, Code of ethical. American Occupational Medical Association, 818
Conduct in occupational medicine: A perspective, The organizational environment and ethical. Robert W. Ackerman, 707
Conduct in occupational medicine, Summary of discussion: I, The organizational environment and ethical. Marvin Lieberman, 724
Conduct in occupational medicine, Summary of discussion: II, The organizational environment and ethical. Marvin Lieberman, 748
Conduct in occupational medicine: Loyalty of the occupational physician, Organizational environment and ethical. Duane L. Block, 742
Conduct in occupational medicine, The organizational environment and ethical. Alfred C. Neal, 720
Conduct in occupational medicine, The organizational environment and ethical. Donald L. Martin, 715
Conferences (See also Symposia):
  Health Policy: Realistic Expectations and Reasonable Priorities, 5
  Sexuality: Its Problems and Treatment in the Disabled, 499
  Conference on Ethical Issues in Occupational Medicine, 705
Confidentiality: A perspective from the nursing profession, The issue of. Muriel S. Pappert, 758
Confidentiality, Summary of discussion: The issue of. Marvin Lieberman, 772
Confidentiality, The issue of. Alan McLean, 751
Contaminants in potable water, Carcinogenesis induced by trace. Herman F. Kraybill, 413
Control of operating room infection, The: Discipline, defense mechanisms, drugs, design, and devices. Harold Laufman, 465
Coronary artery disease and valvular disease, Circulatory response to tracheal intubation in patients with. Gerard M. Bassell, Yen T. Lin, Yasu Oka, Ronald M. Becker, and Robert W.M Frater, 842
Costs, Canadian lessons about health-care. Robert A. Armstrong, 84
Costs, National health insurance as an agent for containing health-care. Milton I. Roemer, 102
Costs of controlling sulfur oxides in air, Health benefits and health. Lawrence E. Hinkle, Jr., 1257

Costs, Risks, and Benefits of Surgery, John P. Bunker, Benjamin A. Barnes, and Frederick Mosteller. Book review. William F. Mitty, Jr., 970
Costs versus benefits of sulfur oxides and related particulate matter control. Vaun A. Newill, Ronald E. Wyzga, and James R. McCarroll, 1211
Costs? Will regulation control health-care. David S. Salkever, 73
Cruz, Ernesto B., 881
Cryder, Thelma Smith. John Dickinson and Daniel Hughes: Two early Cape May County physicians, 606
Curnen, McCrea Mary G.: Epidemiological outlook on cancer, 349
Curran, M.D. 1893-1977, Jean Alonzo. Duncan W. Clark, 303
Current concepts on mechanisms of chemical carcinogenesis. I. Bernard Weinstein, 366

D

Dancis, Joseph. Presentation of the Academy Medal to Saul Krugman, M.D., 910
Davis, Morris, 733
Defense mechanisms, drugs, design, and devices, The control of operating room infection: discipline. Harold Laufman, 465
Design, and devices, The control of operating room infection: discipline, defense mechanisms, drugs. Harold Laufman, 465
Devoe, Arthur Gerard. Ophthalmological problems of the elderly, 561.
Dickinson and Daniel Hughes: Two early Cape May County physicians, John. Thelma Smith Cryder, 606
Diet and nutrition. Paul M. Newberne, 385
Dineen, Peter, 177
Dinman, Bertram. The loyalty of the occupational physician, 729
Disabled: some current work: clinical, training, and research aspects, Sexuality in the. Joan L. Bardach, 510
Discipline, defense mechanisms, drugs, design, and devices, The control of operating room infection. Harold Laufman, 465
Discussion, general: Session I (Symposium on Environmental Effects of Sulfur Oxides and Related Particulates). Norman Simon, Merril Eisenbud, Edward Ferrand, and George Wolff, 1045
Discussion, general: Session II (Symposium on Environmental Effects of Sulfur Oxides and Related Particulates). Harold T. Fuerst, Herbert Schimmel, Inge Goldstein, John Tukey, Robert W. Buechley, Ian T.T. Higgins, and Peter Bloomfield, 1132
Discussion, general: Session III (Symposium on Environmental Effects of Sulfur Oxides and Related Particulates). Merril Eisenbud, John Knelson, Benjamin G. Ferris, Jr., Jack D. Hackney, and Carl M. Shy, 1186
Discussion, general: Session IV (Symposium on Environmental Effects of Sulfur Oxides and Related Particulates). Leonard J. Goldwater, Delbert Barth, Norton Nelson, Lester Lave, and Peter Freudenthal, 1268
Discussion of paper by Herbert Schimmel. Ian T.T. Higgins, 1115
Discussion of paper by Herbert Schimmel. John W. Tukey, 1111
Discussion of paper by Herbert Schimmel. Peter Bloomfield, 1109
Discussion of paper by Herbert Schimmel. Robert W. Buechley, 1113
Discussion of paper by Merril Eisenbud. Conrad Simon, 1012
Discussion of paper by Newill, Wyzga, and McCarroll. Norton Nelson, 1245
Discussion of paper by Newill, Wyzga, and McCarroll. Peter C. Freudenthal, 1249
Discussion, Panel (Cancer Epidemic? A Symposium on Carcinogens). Roy E. Albert, Arthur C. Upton, Bertram W. Carnow, and Ernst L. Wynder, 435
Disabled: the role of the professional, Sexuality and the physically. Maj-Britt Rosenbaum, 501
Disease in England, Woolsorters'. Marc F. LaForce, 956
Doxycycline, Anaerobic lung infections treated with. Haragopal Thadepalli, David Webb, and Jong T. Huang, 165
Drugs, design, and devices, The control of operating room infection: discipline, defense mechanisms. Harold Laufman, 465
Dubost, Charles. Heart surgery in France, 915
Duty to report hazards: A public-health perspective. Donald H. Wegman, 789
Duty to report hazards: A toxicologist's view, The. Robert A. Scala, 774
Duty to report hazards: Summary of the discussion: The. Marvin Lieberman, 795
Duty to report health hazards, A company's. Bruce W. Karrh, 782

E

Education in Canada, Ethical questions posed by community and government pressures on medical. Arnold Naimark, 687
Education in geriatric medicine. Irving S. Wright, 944
Education of, physicians on the care of aging

persons, Statement on the need for the. The New York Academy of Medicine, 542
Educating the public about health, priorities in. Anne R. Somers, 37
Effect of misclassification of exposure status in epidemiological studies of air pollution—health effects, The. Carl M. Shy, David G. Kleinbaum, and Harold Morgenstern, 1155
Effects of state and federal laws and regulations on medical schools, The. Phil R. Manning, 670
Effects of New York City's fiscal crisis on the Department of Health, The. Pascal J. Imperato, 276
Egyptian case of carcinoma, Ancient. Eugen Strouhal, 290
Eisenbud, Merril. Levels of exposure to sulfur oxides and particulates in New York City and their sources, 991
Eisenstadt, Marvin E., 449, 457
Eisenstadt, Marvin E. Private industry, 449
Elderly, Ophthalmological problems of the. Arthur Gerard Devoe, 561
Elderly patients: Preparation for the future, The role of the primary physician in the care of. Irving S. Wright, 545
Elderly: The Framingham study, Evaluation of cardiovascular risk in the. William B. Kannel and Tavia Gordon, 573
Ellsworth, Robert M. 849
Energy, The subcommittee on public health aspects of. Norman Simon, 985
Epidemic? A symposium on carcinogens, Cancer. Blue Cross and Blue Shield of Greater New York, 347
Epidemiological considerations relative to sulfur oxides and particulates. Anthony V. Colucci, 1166
Epidemiological outlook on cancer. Mary G. McCrea Curnen, 349
Epidemiological priorities as a basis for health policy. Amasa B. Ford, 10
Epidemiological studies of air pollution—health effects, The effect of misclassification of exposure status in. Carl M. Shy, David G. Kleinbaum, and Harold Morgenstern, 1155
Essential hypertension, A physiological basis for the treatment of. Michael A. Weber and John H. Laragh, 931
Ethical concerns in clinical teaching: The surgical internship and residency. Francis D. Moore, 648
Ethical conduct and the occupational physician. Donald Whorton and Morris Davis, 733
Ethical conduct for physicians providing occupational medical services, Code of. American Occupational Medical Association, 818
Ethical conduct in occupational medicine: A perspective, The organizational environment and. Robert W. Ackerman, 707
Ethical conduct in occupational medicine: Loyalty of the occupational physician, Organizational environment and. Duane L. Block, 742
Ethical conduct in occupational medicine, Summary of discussion: I, The organizational environment and. Marvin Lieberman, 724
Ethical conduct in occupational medicine, Summary of discussion: II, The organizational environment and. Marvin Lieberman, 748
Ethical conduct in occupational medicine, The organizational environment and. Alfred C. Neal, 720
Ethical conduct in occupational medicine, The organizational environment and. Donald L. Martin, 715
Ethical issues: A theologian's view, Legal and philosophical perspectives on. Donald W. Shriver, Jr., 797
Ethical questions posed by community and government pressures on medical education in Canada. Arnold Naimark, 687
Ethics and the moral center of the medical enterprise. Edmund D. Pellegrino, 625
Ethics in litigation, Medical. Milton R. Wessel, 808
Evaluation of research strategies for investigation of health effects of air pollution. Inge F. Goldstein and Martin Goldstein, 1119
Evaluation of the cardiovascular risk in the elderly: The Framingham study. William B. Kannel and Tavia Gordon, 573
Evidence for possible acute health effects of ambient air pollution from time series analysis: Methodological questions and some new results based on New York City daily mortality, 1963-1976. Herbert Schimmel, 1052
Evidence for the influence of sulfur oxides and particulates on morbidity. John H. Knelson, 1137
Existing legislation and government regulatory agencies. John R. Quarles, Jr., 442
Experience with the implementation of national health-planning legislation. Pascal James Imperato, 42
Experimental studies of the human health effects of sulfur oxides. J.D. Hackney, W.S.

Linn, and K.A. Bell, 1177
Exposure to sulfur oxides and particulates in New York City and their sources, Levels of. Merril Eisenbud, 991
Exposure status in epidemiological studies of air pollution—health effects, The effect of misclassification of. Carl M. Shy, David G. Kleinbaum, and Harold Morgenstern, 1155

F

Family practice preceptorship: Ethical concerns, The. Charles M. Plotz, 657
Federal health care policy, The formulation of. Lawrence D. Brown, 45
Federal laws and regulations on medical schools, The effects of state and. Phil R. Manning, 670
Ferrand, Edward. Air-quality trends in New York City, 1025
Ferrer, José M. President's remarks, 903
Ferris, Benjamin G. Jr. Further comments on sulfur oxides and particulates, 1171
Finkelstein, Stanley M. Modelling the gastrointestinal system, 251
First autopsy in the new world. Fidelio A. Jimenez, 618
Ford, Amasa B. Epidemiological priorities as a basis for health policy, 10
Formulation of federal health care policy, The. Lawrence D. Brown, 45
Framingham study, Evaluation of cardiovascular risk in the elderly: The. William B. Kannel and Tavia Gordon, 573
France, Heart surgery in. Charles Dubost, 915
France, The organization of surgery in. Maurice M. Mercadier, 918
Frank Brown Berry, 1892-1976. Edward G. Stanley-Brown, 532
Frater, Robert W.M. 842
Freudenthal, Peter C. Discussion of paper by Newill, Wyzga, and McCarroll, 1249
Freymann, John Gordon. Priorities in the organization of medical practice, 23
Fuerst, Harold T. 1132
Further comments on sulfur oxides and particulates. Benjamin G. Ferris, Jr., 1171
Future of long-term care, The. Faye G. Abdellah, 261

G

Gastrointestinal system, Modelling the. Stanley M. Finkelstein, 251
Gelfand, Maxwell L. and Kloth, Howard. Bradyarrhythmia in mitral valve prolapse treated with a pacemaker, 889
Genitourinary tract infections, Tetracyclines in the treatment of. L.D. Sabath, 205
Geography and public health, Trees as a theme in medical. Kenneth Thompson, 517
Geriatric medicine, Education in. Irving S. Wright, 944
Geriatric psychiatry today. Seymour B. Jacobson, 568
Glass, Kenneth S. and Hochberg, Fred. Nonunion of carpal navicular bone: Comparison of two methods of treatment, 865
Goldstein, Inge F. and Goldstein, Martin. Evaluation of research strategies for investigation of health effects of air pollution, 1119
Goldstein, Martin. 1119
Goldwater, Leonard J. Chairman's comments, 1209
Goodman, Berney. Introductory remarks (Sexuality: Its Problems and Treatment in the Disabled), 499
Gordon, Tavia, 573
Government pressures on medical education in Canada, Ethical questions posed by community and. Arnold Naimark, 687
Government regulatory agencies, Existing legislation and. John R. Quarles, Jr., 442
Groups, Public interest. A. Karim Ahmed, 446
Groups, Public interest. Joseph H. Highland, 444
Gynecologic infections, Tetracyclines in. William J. Ledger, 196

H

Habits, Personal. Ernst L. Wynder, 397
Hackney, J.D., Linn, W.S., and Bell, K.A. Experimental studies of the human health effects of sulfur oxides, 1177
Hazards, A company's duty to report health. Bruce W. Karrh, 782
Hazards: A public-health perspective, Duty to report. Donald H. Wegman, 789
Hazards: A toxicologist's view, The duty to report. Robert A. Scala, 774
Hazards, Summary of the discussion: The duty to report. Marvin Lieberman, 795
Health aspects of energy, The subcommittee on public. Norman Simon, 985
Health benefits and health costs of controlling sulfur oxides in air. Lawrence E. Hinkle, Jr., 1257
Health benefits of abating air pollution, Lester B. Lave, 1235
Health-care costs, Canadian lessons about. Robert A. Armstrong, 84
Health costs of controlling sulfur oxides in air,

Health benefits and. Lawrence E. Hinkle, Jr., 1257
Health effects of air pollution, Evaluation of research strategies for investigation of. Inge F. Goldstein and Martin Goldstein, 1119
Health effects of ambient air pollution from time series analysis: Methodological questions and some new results based on New York City daily mortality, 1963-1976, Evidence for possible acute. Herbert Schimmel, 1052
